

Durable, safe, attractive:

Silikal flooring in a ski workshop

Expect more from your floor.

Robust and low maintenance:

Silikal flooring in the ski workshop

Service is a top priority in the Kofel-Center ski workshop in Carinthia/Austria: this includes the sharpening, tuning and hot waxing of skis and snowboards. The new Silikal reactive resin flooring has no problem withstanding

such wear and tear. It counters sharp-edged boards, everyday dirt, and the heavy ski boots worn by customers with durability, low maintenance, and an attractive appearance.

Proven in the field
For over 55 years
On many million m²

Skillfully applied by qualified installers and the new floor is fully cured and ready for action within two hours. A perfect way to keep your operation running wide open.

Expect more from your floor.

Silikal GmbH

Reactive resins and polymer concrete for industrial floors and civil engineering projects
